

IP PAN - TILT HEAD (WEB BASED)

The PTH-13 Pan - Tilt Head is the ideal solution to facilitate the movement of IP as well as CCTV cameras in both fixed and mobile (optional) applications.

The PTH-13 head is an extremely rugged, highly engineered product which utilises carefully selected components for reliable operation in all types of environments.

The unit features precision machining throughout with environmental protection to IP68.

With built in externally adjustable pan and tilt mechanical limit stops, feedback potentiometers and regenerative braking, this pan-tilt head is extremely easy to control and built for rugged duty.

APPLICATIONS:

- Camera Positioning
- Antenna Alignment
- Microphone Pointing
- IR Light Adjustment
- Spot Light Positioning

KEY FEATURES:

- Precision-Machined Pan-Tilt Head (13 lbs cap.)
- Rugged Construction (Fixed or Mobile Model)
- Externally Adjustable Pan-Tilt Limit Stops
- Precision Feedback Potentiometers
- Regenerative Braking
- Operating Voltage 12 VDC (24 VDC Optional)
- Draws Less Than 1.5 W Per Axis
- IP 68 Rated
- Operating Temperature -30 C to +70 C
- 1-Year Warranty
- MIL-C-26482 Connector
- Ideal for Remote Solar Power or Mobile Applications
